Dear partners,

Greetings from the International Charitable Foundation "Nightbird"!

International Charity Fund "Nightbird" was established in 2023 with the aim of spreading awareness in the global community about the situation in Ukraine caused by the invasion of its sovereign territory by the Russian Federation, as well as collecting funds and humanitarian aid to support the Ukrainian army and people fighting for independence and territorial integrity of our country.

More information about the International Charitable Foundation "Nightbird" can be found on our website www.nightbird.fund.

We accept donations through various channels, including bank transfers from individuals and companies, as well as humanitarian aid in form of military equipment such as body armor, night vision goggles, weapons, communication systems, vehicles, medical equipment, etc. We welcome any contribution to our common goal - the victory of Ukraine in this terrible and unjustified war, which has brought and continues to bring a lot of pain and destruction to the Ukrainian state and its people every day.

The funds we receive are used for the purchase of humanitarian aid for the Ministry of Defense of Ukraine, military units and other state and non-state bodies, institutions and organizations that stand day and night to protect the sovereignty and territorial integrity of Ukraine.
